

## Number bonds to 10

Number bonds are pairs of numbers that add together to make a certain number. Which sum is not a number bond to 10? Do the sums and circle the one that does not equal 10.

$2 + 8 = \square$

$1 + 9 = \square$

$6 + 4 = \square$

$3 + 8 = \square$

$7 + 3 = \square$

$5 + 5 = \square$

Draw lines to match up the number bonds that make 10.

one ----- five

two ----- nine

three ----- six

four ----- eight

five ----- seven

Good work! Tick the star.
