Brilliant bonds! Tick the star.

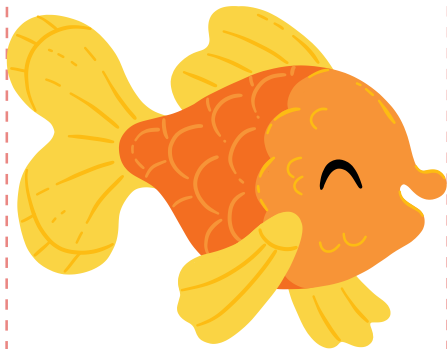

Shape & measure

Measuring size

We can measure things using a ruler. The ruler on this page shows length in centimetres. Use the ruler to measure all the creatures. Start measuring from the number 0 on the ruler.

The shark is: 9 centimetres.

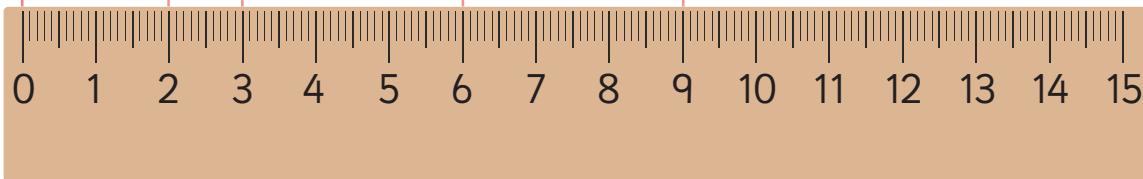

The fish is: 3 centimetres.

The ladybird is: 2 centimetres.

The ant is: 1 centimetres.

What else could you measure? Tick the star.
